Portable 2MP Digital Microscope/Video Camera with 2.8'' LCD Screen and 15x to 200x Digital Zoom

microscopic

VP-SCOPE

Open a whole new world of exploration with the HamiltonBuhl® VP-SCOPE, the portable, handheld digital microscope camera.

Get the versatility and functionality usually found in much larger, more expensive, non-portable microscope/cameras for all ages!

This innovative design takes the traditional microscope and makes it as portable and easy to use as any digital camera – just zoom in and take your picture.

The digital zoom magnifies from 15x to 200x, so you can focus on tiny objects such as electronics, insects, slides and more! The incredibly precise lens and adjustable LED lighting system ensures the best possible photos and videos. Everyone become more engaged when learning more about the microscopic world that surrounds them, and this portable digital microscope/camera enables new discoveries and learning!

10x Magnification
