Blackbear the Pirate Series and Hector Fox Series of Augmented Reality (AR) and Virtual Reality (VR) Books

BEAR4 and FOX4

Introducing Augmented Reality books with InkMotion™ 3D technology and read-along narrations created by Bangarang Books, brought to you by HamiltonBuhl®. Blending tradition with innovation, these one-of-a-kind books create an all immersive experience enhancing learning and entertainment experience.

The Augmented Reality and Virtual Reality technology woven into these pages make illustrations pop off the page and set the stage for a lifetime of reading fun! Simply download/launch the free app, put a smartphone or tablet over a page to see AR and VR functions: "Pop™" "Read™" "Peek™" or "Go™".

With lovable original characters, beautiful illustrations and irresistible stories from award-winning authors and illustrators, children are invited into a world full of wonder and adventure. With the app in hand, kids will dynamically experience these books in amazing ways.

Download the App (search by each individual book title) on an Android™ or Apple™ smartphone or tablet (from Google Play or the Apple App store), and hold your device over the book pages to experience a host of AR and VR story-enhancing applications.

READ

Read™ allows kids to hear the story and character voices, while seeing highlighted text as they go, helping them follow along and learn to read better. Makes learning fun!

Anytime the viewer on the app is marked with POP™ in the top right corner, interactive content pops off the page and into the world around you.

PEEK

PEEK™ marked pages pull kids deeper into the page as they see the words and pictures come to life through animated vignettes. Stories truly come to life!

GO

GO™ marked pages take kids on a journey into the books themselves, fully immersing them in 3D environments, with a 360° virtual reality experience where the child actually feels they are part of the picture themselves!
