

GameRush™

Gaming Headsets

G18LPUIBL

Collaborative, multiplayer games are transforming learning and education by providing a powerful context for learning, requiring students to think, talk and work both on their own and within a group to accomplish a pre-determined goal within a story-line otherwise inaccessible to them.

GameRush™ headsets are custom-made for collaborative gaming. Ruggedly constructed with enhanced and easy controls, they feature adjustable plush foam headband, soft leatherette swivel ear cups, audio and mic controls, and a noise-canceling, omnidirectional swivel gooseneck microphone for maximum operational flexibility. And, in-game voice volume adjusts to ensure clear and crisp team communication.

Lose yourself in your favorite games and kick up your experience a notch with the GameRush™ gaming headsets from HamiltonBuhl®.

Inline Control Switch
