

12-Station Bluetooth® Wireless Listening Center

LCP/12/901BT

The HamiltonBuhl LCP/12/901BT Listening Center lets you go wireless in your classroom with plug-and-play simplicity.

Connect to the wireless transmitter via Bluetooth® with your tablet, mobile device or any unit with Bluetooth® capabilities. Audio is then transmitted to a nearly unlimited number of wireless headphones via a wireless FM signal.

Perfect for all multimedia, lab and classroom applications, this system includes one wireless transmitter, 12 wireless headphones; two AC Power Adapter, two 6-way charging cables and a lockable carrying case (lock not included).

Easily switch between 4 different frequencies with color-coded switches. Add additional transmitters to have up to 4 different channels of audio simultaneously!

Note: A single AC Power Adapter is only capable of charging 6 wireless headphones at one time. Do not combine two 6-way charging cables with one AC Cord.

12 W901-MULTI Headphones
