

Laminating Film Rolls

Protection and Lasting Preservation

Laminating Rolls

Laminating is an excellent way to protect and preserve anything on paper from important documents to school projects.

Ideal for almost any paper stock, this clear school-grade laminating film has a glossy finish and will enhance brightness and color, add durability, rigidity and lasting protection to the documents encapsulated within.

These laminating film rolls come on 1" core and feature end-of-roll indicators.

HamiltonBuhl laminating film rolls will protect and preserve your important papers and memories well into the future.
