

MAGNASCREEN™

Universal Screen Enlarger

M14GMVBK

HamiltonBuhl MagnaScreen is the most economical and easy way to magnify your smartphone screen to comfortably watch and share the screen.

Smartphones are convenient and ubiquitous devices that are being used for reading and watching anything - from emails to books and photos to full movies. As convenient as they are, the screens are too small for comfortable viewing. HB MagnaScreen is the solution you need to avoid and eliminate eye fatigue.

The lightweight yet durable, hands-free fold-up design, with a stand for your phone, makes HB MagnaScreen highly portable and a snap to set up anywhere to enjoy your smartphone on a larger display.

Made from acrylic, with a kickstand for your phone, with a 7.6" screen with angle adjustment for best viewing and magnification effect, and no power needs will make HB MagnaScreen your go to source for other magnification needs as well.
