

65 Watt Portable PA System with Handheld Wireless Microphone and USB/SD Inputs

Venu-80

The Venu-80 PA System from HamiltonBuhl is a completely portable, powerful and extremely versatile system with all the latest features to deliver quality sound and ensure successful communication at your event.

Its powerful 65 watt amplifier has high capacity built-in rechargeable batteries for 3-4 hours of wireless, portable operation. Along with a built-in receiver for the wireless handheld mic, it also includes SD and USB inputs, remote control and carry bag, making the Venu-80 PA System a go-to PA solution for all of your events.

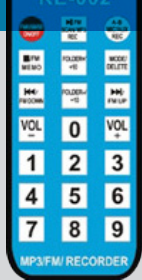

This economical, compact and portable unit is great for large indoor and outdoor events such as press conferences, sports venues, graduation ceremonies, musical productions or any other settings that need quality portable sound.
