

HamiltonBuhl® 900 Series Wireless Bluetooth® Transmitter

W900-BLTM

The HamiltonBuhl® W900-BLTM Bluetooth® Transmitter connects wireless via Bluetooth® with your tablet, mobile devices or any unit with Bluetooth® capabilities. You can also connect audio via aux input, or plug a microphone directly into the back of the unit.

The transmitter then sends high quality audio via FM frequency to nearly unlimited number of W901 series headphones within a 100-foot range.

Perfect for multimedia lab and classroom, this transmitter offers four frequencies with easy, color-coded switches for best reception.
