

Perfect for STEAM Curriculum Lessons!

Classroom Packs of 30, 60 and 90

CM-30, CM-60, CM-90

Get the entire classroom engaged and excited about the wonders of conductivity, circuits and LED lights with HamiltonBuhl's Circuit Mania™ Classroom Packs!

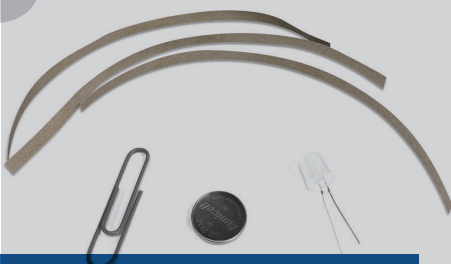

These projects are a fun, exciting and engaging way for young students to learn about conductivity, circuits and LED lights. Now, an entire class of 30 kids can participate in these enlightening STEAM-focused projects thanks to this one kit!

Easy step-by-step instructions walk the class through the fun process as they learn about circuits and power sources. This kit includes enough supplies - sheets of color paper templates, batteries, LED lights, conductive tape roll and clips - for 30 individual projects.

Circuit Mania is perfect for introducing early learners to some of the complex crosscutting concepts found in STEAM subjects. Also available in 60 and 90 Packs!
